

MILLIKEN & COMPANY

U.S. Supplier Diversity Policy Statement

At Milliken we believe a diverse and inclusive supplier program benefits all stakeholders. We encourage diversity and inclusion when making supplier selections. Milliken awards business to the best supplier based on integrity, value, quality, risk, sustainability and price.

Recognized supplier diversity categories are further described on [Supplier Resources](#). To be designated as a diverse supplier, a supplier can self-certify. Milliken annually audits aspects of our Supplier Diversity Policy. Providing a supplier diversity certification does not guarantee business nor does it assure companies as a preferred supplier status. Milliken suppliers must meet all other Milliken requirements, including accepting our Supplier Code of Conduct.
